## About Us

With a modest objective to give a shape to designer's dreams across the globe, under C-Design banner we launched Outsourced Creative Works as the creative power house for Design Industry in the year 2005. Since inception our pro-active team of experienced professionals in the field of creative design, animation, architecture and engineering are ready to take up any challenge head-on in giving dreams a shape, capturing the moment & making it real. It's from this thought we came up with our slogan, **"Design Beyond Thoughts"**. Our friendly, professional and dedicated approach combined with unbeatable technology based design skills; we are able to cater to enduring business from more than 1000 loyal customers across the globe. Our aggressive approach to bring a breakthrough difference in Design Industry across the globe has led us to evolve from a leading architectural drafting and detailing service provider to a full-fledged design solutions company today. What started as an architecture design company, now within 10 years, we are proud to say that we can handle any design requirements given to us. Years of experience and technical expertise has led us to stand confident and completely capable to deliver required Designs as per our customer's needs. Be it architecture design, landscape design, interior design, print design, creative arts design, 3D modelling designs, animation or any new media design format our team is well equipped with skills and technology to understand our customer's needs and deliver most effective results on time every time. Our objective is to provide customers a one stop solution for all of their Designs related needs, our customers approach us with their ideas and gets associated wearing a satisfied smile as they see their ideas and dreams taking shape. Though we strive to deliver the most effective Design as per the customer's needs but we consider any customer a happy customer only after he/she approaches us with a repeat business; we strongly believe in cementing healthy relationship with our customers. Our office is head quartered in catalysing lush green environment of Kerala in India; globally our offices are located in Dubai and US.
